

Serial No. 09/921,423

IN THE DRAWINGS:

Pursuant to 37 C.F.R. § 1.121(d), Applicants are submitting proposed changes to Figs. 1 and 1A and herein request Examiner's approval for such changes. Figs. 1 and 1A are enclosed herein on a separate paper showing the proposed changes in red. The minor changes being proposed to these figures do not add new matter to the above-referenced application and are requested to (i) more clearly identify with numerals 110 and 120 the different alternating layers on the different sides of the figures as requested by the Examiner; (ii) remove redundant labeling of element 110 on both figures; and (iii) label the etch resistant layer 130 on the left side of both figures. Upon approval, Applicants will file new drawings in compliance with 37 C.F.R. § 1.84.
